

vaderbaum (10/30/2006 4:12:42 PM): Do we have any idea of timing?
btothevizza (10/30/2006 4:14:20 PM): i thought you said you were going to behave yourself yesterday....
btothevizza (10/30/2006 4:14:42 PM): as soon as i can get changes back from dan, i can have it up on the devel site
btothevizza (10/30/2006 4:15:04 PM): i sent you those changes ...check your email...
vaderbaum (10/30/2006 4:15:59 PM): send it to vaderbaum@yahoo.com
vaderbaum (10/30/2006 4:16:11 PM): i did'nt get it
btothevizza (10/30/2006 4:17:03 PM): i thought you were going to get a POP account...?
vaderbaum (10/30/2006 4:17:16 PM): forgot
vaderbaum (10/30/2006 4:19:49 PM): got it - how long does dan tell you to complete?
vaderbaum (10/30/2006 4:20:02 PM): he's usually pretty quick
btothevizza (10/30/2006 4:21:56 PM): if he doesnt have plans with his family tonight he will probably get it done tonight...it is 7:21 his time like you
vaderbaum (10/30/2006 4:22:23 PM): ok - does this design stuff stall integration?
btothevizza (10/30/2006 4:22:58 PM): everything does
btothevizza (10/30/2006 4:23:21 PM): if bill doesnt have the 2nd page, how can he put it on the development server?
vaderbaum (10/30/2006 4:24:16 PM): your right but cant we just go with it the way it is and make any other design chages later?
vaderbaum (10/30/2006 4:24:36 PM): so we can proceed more timely
btothevizza (10/30/2006 4:26:49 PM): jeff you are going to have to be patient...we talked about this yesterday....this is not the only project we have on our plates....also bill will not put stuff up that is not complete because then he spends time going back and doing it again...we like to do things right the first time rather then piecing it up and having to do things twice for the sake of speed....while this may seem illogical, it works for us...i have been building and integrating sites with bill for 5 years now
btothevizza (10/30/2006 4:27:07 PM): there is an art to this believe it or not...
btothevizza (10/30/2006 4:27:23 PM): conversions will either make or break a deal...
btothevizza (10/30/2006 4:27:35 PM): if conversions are in the toilet nobody will send traffic to it
vaderbaum (10/30/2006 4:27:47 PM): ok - your the boss
btothevizza (10/30/2006 4:27:54 PM): if conversions are strong...traffic ramps up quicker then have ever seen before...
btothevizza (10/30/2006 4:28:01 PM): that second page is critical....
vaderbaum (10/30/2006 4:28:40 PM): now your speaking my language - and putting me in my place at the same time
btothevizza (10/30/2006 4:28:43 PM): i can tell you less then 5% of the visitors will take the ITP the way that it is on their now
vaderbaum (10/30/2006 4:29:03 PM): you now marketing better me
btothevizza (10/30/2006 4:29:07 PM): with some adjusting i can get 70% to take it....huge difference in numbers...
vaderbaum (10/30/2006 4:29:09 PM): know
vaderbaum (10/30/2006 7:33:42 PM): it looks like Dan completed all of your requirements : <http://www.vector13.com/zaazoom/freecreditreport/page2.html>
